# THE NYLOTEX FABRIC GUIDE

[www.mahavirspinfab.com](http://www.mahavirspinfab.com)

Nylon fibers consist of long synthetic polyamide chains which makes them popular for their strength, flexibility, toughness, elasticity, wash ability, and ease of drying. With continuous efforts of our research and development team, we developed the Nomadic Nylotex fabrics range which offers strength and durability to military uniforms, workwear, outdoor clothing without compromising their comfort. Products made with Nomadic Nylotex fabrics are durable and always ready to work overtime under some of the toughest conditions. We use Nylon 6 & Nylon 6,6 as per the requirements for the strength and durability, while maintaining breathability and comfort.

## NYLOTEX AIR

With the strength of Nylon 6 and Nylon 6,6 a wide range of lightweight fabrics with varying air permeabilities can be classified under the Nylotex Air fabric range. This provides very high physical parameters while being lightweight.

CODE	COMPOSITION	WEIGHT	FINISH	WEAVE
NTEX55R	100% Nylon	55 GSM	OWR	Ripstop
NTEX65R	100% Nylon	65 GSM	OWR	Ripstop
NTEX75H	100% Nylon	75 GSM	Normal	Huckaback

## NYLOTEX AQUA

The Aqua range has high water resistance without compromising the comfort and strength of the fabric.

CODE	COMPOSITION	WEIGHT	FINISH	WEAVE
NTEX75 PU	100% Nylon	75 GSM	PU Coated	Oxford
NTEX95 LM	100% Nylon	95 GSM	Lamination	Plain
NTEX115 PU	100% Nylon	115 GSM	PU Coated	Plain
NTEX300R PU	100% Nylon	300 GSM	PU Coated	Ripstop

## NYLOTEX DURA

For fabrics where durability is necessary, especially in rigorous environments and physical conditions, Nylotex Dura proves to be the best option.

CODE	COMPOSITION	WEIGHT	FINISH	WEAVE
NTEX300R	100% Nylon	300 GSM	OWR + FR + PU	Ripstop
NTEX330	100% Nylon	330 GSM	OWR + PU	Plain
NTEX380R	100% Nylon	380 GSM	OWR + PU	Ripstop

## NYLOTEX CYON

Based on the natural origin of cotton, Nylotex Cyon creates a perfect blend, combining the comfort of cotton and the strength of Nylon in the same product.

CODE	COMPOSITION	WEIGHT	FINISH	WEAVE
NCO TEX215R	50% Cotton, 50% Nylon	215 GSM	Normal	Ripstop
NCO TEX230T	78% Cotton, 22% Nylon	230 GSM	Normal	2/1 Twill
NCO TEX220C	78% Cotton, 22% Nylon	220 GSM	Normal	Canvas
